## OUR "TAJ MAHAL" HAS ALL THE PERFORMANCE.

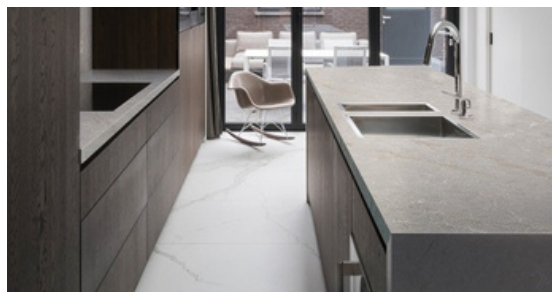

Natural Taj Mahal quartzite is subject to scratching, staining, and cracking over its lifespan. That isn't the story with Wilsonart<sup>®</sup> Quartz. Glencoe and Marathi Marble are easier to fabricate and install thanks to built-in scratch, stain, and crack resistance. Our Quartz designs never require sealing and don't experience the water damage that is common with natural stone.

\*Compared to natural Taj Mahal quartzite from Brazil.

### GLENCOE (Q4077)

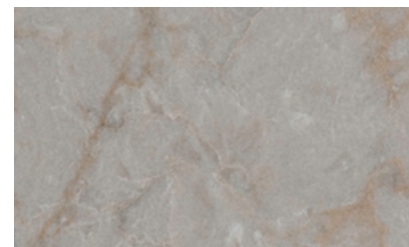

Choose Glencoe for warmer undertones, a creamy white background, and sweeping golden tones throughout the slightly translucent slab.

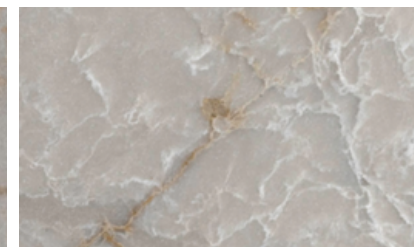

### MARATHI MARBLE (Q4078)

Marathi Marble is a cooler interpretation of Taj Mahal quartzite. This design offers a taupe background, slight translucency, and thin white veins.

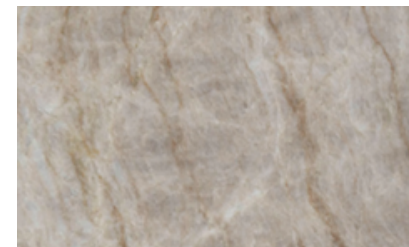

Meet Glencoe and Marathi Marble from Wilsonart<sup>®</sup> Quartz, our "Taj Mahal" options that have it all. Wilsonart has captured the natural beauty of Taj Mahal quartzite and made it perform better.
